Aerial Scene Understanding Using Deep Wavelet Scattering Network and Conditional Random Field

Sandeep Nadella

Software Engineer @AlignTechnology
San Francisco Bay Area

Summary

Professional Cloud Application Development Engineer with over 8 years experience in designing, building and managing applications utilizing various tech stacks involving NodeJS, Java, Ruby on Rails, Typescript

Experience

Align Technology
Full Stack Developer
June 2020 - Present (3 years 11 months)
San Jose, California, United States

• Designed and built GraphQL schemas and resolvers, RESTful and Non-RESTful APIs, Kafka publish-subscriber models for various features spanning across Virtual Care, Subscriptions Portal, Align Special Markets Portal, Align Diagnostics Subscription, Align Admin Back Office, My Invisalign Web, iOS and Android Mobile applications
• Codesigned Subscription-based payment models for use in Vivera Retainer Subscriptions, Align Diagnostics Subscriptions, and Treatment Planning Services at Invisalign while working with global teams
• Stabilized, and maintained GraphQL NodeJS, and Ruby on Rails code repos for our Consumer Platform, Global Invisalign Experience teams here at Align
• Significantly contributed towards Ruby on Rails and NodeJS microservices at the API design level, Schema design level, and System Design level
• Improved performance of API endpoints by 40% in some cases across services through SQL optimizations, Application layer(ActiveRecord), and API design optimizations, and through requirement cut-downs when necessary while ensuring system scalability and built backends to serve metric reports
• Supported deployment of docker container stack over Heroku through Bamboo CICD ensuring Checkmarx, Snyk Security fixes, Unit Test Case integrations
• Guided and mentored Developers and QA across experience levels over project releases and ensured product growth, successful timely deliveries

• Offered production support for customers on features delivered and worked on identifying patterns, ensuring we learned along the way
• Ensured scalable fault-tolerant designs and code maintainability across services
• Built point-to-point integrations involving Google Ad forms and Meta Lead Ad forms(Facebook and Instagram) with Align Lead Service API
• Developed Salesforce connector to exchange CDC, platform events over push topics, PubSub API with Confluent Kafka topics
• Designed and built node microservice in NestJS using Prisma ORM to handle reseller orders for project Orion

Arizona State University

Full Stack Developer

February 2019 - May 2020 (1 year 4 months)

Tempe, Arizona, United States

• Built Analytics applications for Student grades for ASU SoMSS, AMLSS departments, MTBI program using Node.js, Angular, Cube.js
• Developed core application features including JSON Web Token(JWT) based application login, Secure file storage in AWS S3, Visual analytics dashboard using Cube.js and Chart.js
• Deployed applications on Amazon Web Services(AWS) and Apache web servers
• Deployed and Maintained Docker-based Open source software such as Opencast for SoMSS, Concerto for CHS departments
• Integrated Concerto with REDCap(Clinical EDC Software for translational research) for the College of Health Solutions department using R language
• Offered technical assistance for the maintenance of High-performance Computing servers, Department and Lab servers involving Bash scripting

Oracle

3 years 2 months

Senior Software Developer

May 2018 - July 2018 (3 months)

Hyderabad, Telangana, India

Led the following integration projects
• Commerce-Responsys
- Orders, Profiles and Abandoned Cart sync flows
• Commerce-SiebelCRM
- Order sync flows
• Commerce-Oracle Engagement Cloud for Communications

- Order API and Webhook flows

• Commerce-ProductHub

- File Upload/Download, Products Import/Export flows

Applications Engineer

June 2015 - April 2018 (2 years 11 months)

Hyderabad, Telangana, India

• Contributed significantly to the development of Commerce Cloud Adapter by working on Oracle Integration Cloud Services (ICS) SDK

• Led the successful migration of Commerce Cloud internal API documentation to JSON Hyper-Schema, OpenAPI Specification

• Implemented and maintained Swagger functionality of ICS/OIC CC adapter

• Used JavaScript and Java to develop the front end and back end designs for CC-OROMS integration

• Designed XSLT templates for mapping data for Oracle FOM, OROMS and Commerce and implemented Product Hub integration

• Formulated Swagger template based NodeJS custom extensions development for Commerce Cloud

---

Education

Arizona State University

Master of Computer Science, Computer Science · (2018 - 2020)

National Institute of Technology Warangal

Bachelor of Technology - BTech · (2011 - 2015)
